

S&C SLATTER

## Is Your School on the Move?

Are your kids doing their 15 minutes of jogging or running every day?

If you're not achieving the daily mile because your playground or sports field isn't up to the task, we can help get it in better shape.

### Is your activity area:

- Too hard, uneven or slippery to be a safer surface to run on?
- Too muddy to use when it rains?
- Not a playful space which is bright, colourful and fun?
- In poor general condition?

We're experts in designing and building open space areas for play, general activity and sport.

Spaces which are versatile, hard wearing, easy to maintain and just great for kids.

**Everything is done 'in house' through our own specialist teams.**

- Creating a plan
- Work specification and costings
- Surfacing systems
  - Artificial grass
  - Polymeric
  - Macadam
- Construction and installation
- Ancillary features including fencing, access paths and landscaping
- Maintenance and aftercare

We're resourced to deliver projects of all sizes and complexity so call us today on **01635 345210** to arrange an initial discussion on what you want to achieve with your open space.

Ask for Matthew Thompson who is our Project Manager specialising in school play and activity.
